Mobile App User Manual

1. Login View:
To access the application, enter your credentials. If you are a Turkish user, use your TC id and if you are a foreign user, use your Passport No.

2. Signup View:
If you don't have an account, sign up by providing necessary information such as your name, email, and contact details. Verify your identity as instructed.

3. Home View:
This is your dashboard where you can navigate to different sections of the app easily. From here, you can access various features and functions.

4. Chats View:
In this section, you can view your chat history with doctors or other users. You can also initiate new chats and send messages to your assigned doctor.

5. Invite Doctor View:
If you need to consult with a doctor, you can send them an invitation to chat through this view. Simply click the button to send an invitation.

6. Messages View:
Review your messaging history with a doctor here. You can also respond to messages and ask any questions you may have regarding your check-up or diagnosis.

7. Notifications View:
Stay informed about updates and notifications related to your check-ups and appointments. Access this section to manage your notifications preferences.

8. Check-up View:
Here, you can view a list of all your previous check-ups. You can track the progress of your screenings and access the results and reports.

9. Start Check-up View:
Initiate a new check-up process by uploading your mammogram data. Follow the instructions to upload your medical images securely.
